PROFIL

As a skilled full-stack web developer with a robust front-end foundation, I excel at blending creativity and analytical thinking to tackle challenges proactively. My passion for learning and quick adaptation to new technologies and environments drive my continuous growth. With a keen attention to detail and a collaborative approach, I am dedicated to delivering exceptional results and contributing effectively to any team.

Geburtsdatum: 19. Juli 1989

BERUFSERFAHRUNG

Software Engineer
Januar 2024 - April 2024

InterOffice Gmbh - Dresden, Germany

As a Front-end web developer at Interoffice GmbH, my role involved utilizing state-of-the-art tools and technologies to transform application design into a web application layout using component-based development.

Teacher
Dezember 2011 - Dezember 2020

Computer Science Institute/ Sulaimani Polytechnic University - Sulaimanyah, Iraq

In my previous role, I led practical lessons in Web Development, C#, and Networks. I managed syllabuses and moderated exams while ensuring the smooth operation of the laboratory. Additionally, I served as a translator, bridging language barriers for Kurdish-speaking students in collaboration with our Greek instructor.

Head of projects and fund unit
März 2019 - August 2019

International Relations Office/ Sulaimani Polytechnic University - Sulaimanyah, Iraq

Supervised university academic agreements and facilitated fund acquisition, which was crucial for program development. I actively organized and participated in events hosted by the International Relations Office, fostering global connections within the academic community. It was an exciting opportunity to contribute to the university's international outreach efforts and support the growth of academic programs.
